THEATRICAL.—On Monday and Tuesday evening the Webb sisters, accompanied by Harry Courtaine, Willie Edouin and others played in this place to tolerable houses. For the first evening the play of Dora was produced with Miss Ada Webb as Dora, Miss Emma Webb as Mary Morrison, Harry Courtaine as Farmer Allen, Pierpont Thayer as Willie Allen, and Willie Edouin as Luke Bloomfield. The play was rendered with good effect, the "Sisters" as usual acquitting themselves creditably. Willie Edouin and Harry Courtaine performed their parts admirably. Edouin has the ability to make a star in the comedy line of acting, his conception of the character of Luke Bloomfield was admirable. Thayer seemed to be out of his element as Willie Allen, however, he did well. Harry Courtaine did, as he does everything, his best. Miss Ada Webb's singing is always received with the greatest favor, and we are surprised that she does not introduce more vocal music in her plays. The farce, His Last Legs, the closing scene for the first night, was well received. On Tuesday evening the play of Caste was produced, closing with the farce of Thrice Married. The playing was good, but we can't say as much for the "chopping;" if we do live in the country, we would like to see the whole of a play—both of them in this instance being cut down nearly or quite one-half. In the farce Miss Ada Webb was to personate six characters—and managed to go through four, and as a consequence received the commendation of the audience. We hope, should they ever again visit us, they will bear in mind the fact that cutting down won't do. We have great respect for the ability of the Misses Webb—and we do not like to see their good reputation spoiled by such breaks. It is unnecessary for us to eulogize the several performers further—such names as the Misses Webb, Mrs. Stewart, Messrs. Pierpont Thayer, Harry Courtaine, Willie Edouin and C. Thornton, are too well known to gain further notoriety by any comments we might make about them.

EXHIBITION AT GOLD RUN.—The ladies and gentlemen of Gold Run will give a complimentary benefit at the theatre in that place, on Monday and Tuesday evenings, April 20th, and 21st. It will consist of dialogues, declamations, charades, songs, duets, etc. As the beneficiary is highly worthy we hope the people of our sister town as well as those of our own village will find an opportunity of attending.

The Home Ticket Company, at Gold Run, cleaned up last week, after nineteen days run \$2,500. The company are using two hundred and fifty inches of water. They will work steadily as long as water lasts. The boys have got a "home ticket" worth, having we think.

AFTER a run of fifteen days and nights, Taylor & Co., cleaned up the nice little "stake" of \$3,080. They use four hundred inches of water. An interest in that claim is no bad thing to take. The mine is situated near Gold Run.

ACCIDENT.—As Mr. B. H. Hollowell was engaged in chopping a piece of timber at the new saw mill above this place a few days since, the ax came off the handle and cut his foot so severely as to lay him up for some time.

We learn that the Empire Company at Meadow Lake, are taking out some splendid ore. It is described as sulphuretted rock heavily loaded with gold.

THE Social Circle will meet at the residence of Mr. Kruger, on next Friday evening. A cordial invitation is extended to all.

REMEMBER the Mite Society on next Tuesday evening, at the residence of Mr. Halsey. A general invitation is extended to all.

KINDER & Co., of Gold Run after a run of twenty days cleaned up the sum of \$3,000.

The snow at Meadow Lake is said to be not more than seventeen feet deep.

PRICES OF WATER REDUCED.—The principal water companies of this place and vicinity have concluded to reduce the rates heretofore charged for water to the following prices; 10 cents per inch for 24 hours, day and night, and 9 cents per inch for 14 hours, night water. It is anticipated this action on the part of the water companies will meet with the universal approbation of the miners both in this and the Gold Run district. We are glad to be able to announce this fact as it will place the relations between the two parties upon the old footing, and allow the claims which have remained comparatively idle during the winter to resume operations; and as the Spring promises to be a most favorable one we may yet do much to recuperate ourselves from the business stagnation which has prevailed in this place and Gold Run up to the present writing. The difficulty which existed between the ditch-owners and miners as to the price of water has demonstrated the fact—if indeed, such demonstration had been needed—of what we asserted at the onset, that the action of both parties would tend to bear more heavily upon the poor laborer and his family than either the ditch or claim-owners. Many persons, dependant upon their daily exertions for support have had to seek other localities in quest of employment, merchants who had laid in large stocks of merchandise have been in some instances unable to meet their obligations from the fact that their anticipated trade at the beginning of the season was entirely cut off; hotel keepers have been failing or merely existing for the time being, and in fact as all departments of trade are dependant upon the mineral resources have languished to an extent heretofore unprecedented, requiring the closest calculations and most rigid economy in order to sustain themselves during—to us—this crisis. But now the prospect begins to brighten, and in a few months we are sanguine that we shall resume our old place in prosperity and wealth which was but temporarily interrupted. So mote it be.

ACTION.—Sometime ago we found it necessary to try to impress upon the minds of our citizens the need of action; to make them see that it was almost impossible for any one company to prospect thoroughly for the blue gravel lead entirely unaided, without greatly crippling their resources; but thus far no notice has been taken of our remarks, and things stand about as they did before; a well defined lead of blue gravel talk, with gold sticking out in every direction, except the right one, and but very little work. It is true that one company, the Dutch Flat, are every day sinking money, endeavoring to find the golden stream; while others owning ground around them are satisfied to let them do it; intending, if the Dutch Flat Company strike anything, to open their claims and reap a harvest; and if the before mentioned company are not successful they will not be out anything. This is not fair; our merchants and our miners are now almost wholly dependant, for success, upon the finding of the blue gravel, and they should assist in prospecting for it. If blue gravel is found, those owning property in this place will find it greatly enhanced in value, if it is not found they will know the exact value of it, and whether it is best to stay in this vicinity much longer.

PUBLIC ROADS.—The roads in this road district are in a most deplorable condition. This is in a great measure owing to the severe storms we have had during the winter, and the bad state of the roads before the present Road Overseer came into office. We had a conversation with Mr. Clark yesterday and he assures us that as soon as the weather will permit he will repair the roads throughout the district, commencing with those most traveled. It is impossible for one man to please all, but we feel confident our present Road Overseer will do his duty to the public conscientiously. Give him a chance, the world was not made in a day.

NOT MARRIED.—A few days since we received a note ordering some job work, in which the writer sent compliments to our wife; now we like the word wife, but unfortunately we are not possessed of any such commodity. We are willing, it is true, but cannot find the fair one who is willing to take up her abode with us. We would say to our friend that we have been running this machine some three months and we are not married yet, nor do we see any prospects.

OUR citizens should not forget the Exhibition of the Public School to night. The proceeds of the exhibition are to be used for the purpose of paying for the organ used in the Public School. A fine bill is presented, and you will miss a good thing if you do not attend.

ABOUT one hundred and fifty feet of the Yuba Ditch washed away last week. Since the above was written we learn from the Superintendent, Mr. Holmes, that the ditch has been thoroughly repaired and is now running full.

The "responsible cuss" of this establishment returns thanks for a complimentary ticket to the Gold Run school exhibition.

STORMY, STORMY.—It has rained at intervals throughout the past week.

THE citizens of Meadow Lake have opened the road from that place to Cisco.

LETTER FROM TRUCKEE MEADOWS.

TRUCKEE MEADOWS, April, 7, 1898.

EDITOR ENQUIRER.—Your paper lately has reached this place with a greater degree of regularity, for which the postoffice department has my thanks. I am truly glad to notice in your recent issues improved prospects for those engaged in mining in your vicinity, for I know of no more worthy set of gentlemen than those "Knights of the pick and shovel" at Dutch Flat; they deserve every success, and if industry and perseverance weigh any thing with the fickle goddess, they are sure to reap handsome rewards. I always believed that the Boston, Franklin, Dutch Flat and others would, after proper prospecting pay even larger than ever before, and after a residence of some thirteen years, (excepting the last few months) I have seen nothing to change my belief. Dr. D. W. Strong and S. B. Harriman passed through this place last week and called upon me. Of course I felt bound to offer them all the hospitality in my power. Notwithstanding they had just crossed the snow-belt they were very dry and required such liquids as would quench thirst, which was furnished to them in quantities, and pronounced "good;" which I consider no small recommendation, as one took the liquids for their medicinal properties and the other because he had found them pure, and Sam is a judge. They were on their way to Mono, where they are interested in a new process for reducing ores, recently discovered by Dr. Dozier lately of your place. Mr. Harriman, I believe, is to superintend the business generally, while Dr. Strong expects to get the process and start a branch at some other point. The stockholders of this company I hear feel sanguine as to the ability of Dr. Dozier to perform all he promises, in which case there will be a complete revolution in quartz mining, and such an one as will redound to the pecuniary benefit of all concerned. Success to the enterprise.

Business at this place, as also at Washoe and Virginia city, is improving very rapidly, and as the Spring approaches teamsters get in their stock from the ranches and everything commences to wear a lively business appearance. The depot at Lake's station has been surveyed and the lots will shortly be put in market. This point will doubtless be a permanent business locality, commanding as it will the trade from Honey Lake Valley, Washoe and many other points. I fear I have already trespassed upon your patience, but I cannot close without thanking you for your kind invitation to attend a feline concert, although a passionate lover of music I could not think of neglecting nightly soirees given by Mr. and Mrs. Tom-cat in this vicinity.

The cars are now, making regular trips and the stages go each way heavily loaded. More soon. L. A.

The gentlemanly newsdealer will please accept our thanks for a liberal supply of Eastern magazines and periodicals consisting in part of Harper's Monthly, Harper's Weekly, Frank Leslie's Illustrated News, paper, Harper's Bazar, Police Gazette, and any number of other papers, so many in fact that it will take a month to enumerate them. He is determined to keep us posted if newspapers can do it.

CONSTABLE'S SALE.—Notice is hereby given that by virtue of an execution to me directed and delivered, issued out of the court of N. R. D. Traphagen, a Justice of the Peace in and for Township No. 4, Placer county, California, on the 7th day of April, 1898, and a judgment rendered in said court upon a judgment rendered in said court on the 2d day of January, A. D. 1897, in favor of Bernard Murphy and against Jerry Payne, for the sum of eighty-four and 30-100 dollars costs of suit, have levied upon, and will sell to the highest bidder for cash, in front of the Justice's office in the town of Colfax, Placer county, Cal., on Thursday the 30th day of April, A. D. 1898, at the hour of 1 o'clock P. M., all the right, title, interest and claim of said defendant in and to the following described property, to wit: The northeast portion of lot No. 4, in block No. 2 in the town of Colfax, thirty-seven feet wide by forty-eight feet deep, being in the rear of the Railroad house in said town, together with the building on said lot; also, a certain barrel containing about thirty gallons of whiskey. All of which named and described property I will sell as aforesaid or so much thereof as may be sufficient to satisfy said judgment and costs to become due thereon. J. KECK, Constable, By C. QUEEN, Deputy. 411 td Colfax, April 7th, 1898.

PACIFIC BUSINESS COLLEGE.

MECHANIC'S INSTITUTE, Post Street, Between Montgomery & Ketchy, SAN FRANCISCO.

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many entanglements which might otherwise be avoided. The youthful aspirant will find himself surrounded by inextricable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

Pacific Business College maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the course here prescribed. The system of actual practice embraces all the varied operations of the business, and a Ladies' Department has been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public and competent instructors.

We cheerfully recommend the College as being in our opinion, one of the best schools of merit, and well worthy of the confidence and support of the community.

SOME years since, while residing in the city of Providence, we heard much said in praise of Perry Davis' Pain Killer. We listened incredulously to these testimonials. Well, health failing, as a last resort, the doctors sent us to Minnesota. The winter was intensely cold, and a terrible form of Neuralgia prevailed among the settlers, and we fell into the grasp of the disease, and day and night, for weeks, endured untold agony. Many remedies were tried without avail. One day, however, a stalwart frontiersman entered the room, bearing in his hand a vial partly filled with a reddish liquid. It was some of the Pain Killer. He had bought in California three years before, and had kept it with misery care until then. Applying it externally and internally gave immediate relief. Since then, we have recommended it successfully in cases that baffled the best medical skill; and when we see persons reject this remedy, we recall our own experience, and think that the time may come when pain-unbearable by other agents, may teach them the value of this great discovery.—Home Monthly. 411 1m

HOTELS AND RESTAURANTS.

DUTCH FLAT HOTEL, MAIN STREET, DUTCH FLAT.

CHAS. STEFFENS, Proprietor. THIS HOUSE BEING NOW FULLY completed and arranged in all its appointments presents greater inducements to transient as well as permanent customers than any other establishment of the kind in the mountains. The proprietor having been in the business for a number of years, flatters himself that he is sufficiently known as a caterer to public taste to warrant their support.

LARGE AIRY ROOMS with clean bed linen, well ventilated are ready sites that should not be dispensed with which are ALWAYS found at this house.

THE TABLE will always be found supplied with the latest delicacies of the season, and polite and willing waiters-always in attendance. In connection with the house is a BAR ROOM, always supplied with the best

SUMMER RETREAT! To families and all strangers in the mountains the proprietor would say that Dutch Flat presents all the inducements of a Summer Retreat, being located on the line of the Pacific Railroad at a convenient and pleasant distance from the city, is easy of access to those whose means are limited, and who desire a kind treatment and good living. All the proprietor asks is an opportunity to prove the correctness of the above assertions.

LIVERY STABLE. Connected with the hotel is a first-class Livery Stable, where Carriages and Horses can be had for all parts of the country. Parties supplied with carriages with or without drivers, Carriages from this stable will be found at the depot on the arrival of every train. 414 1 f
